

# **Qi-Shield**®

**USER MANUAL** 

#### THANK YOU

**Thank you for choosing the Qi-Shield!** With this device, you can protect yourself from EMF radiation both at home and on the go. Even with its small size, the Qi-Shield allows you to go about your daily routine without having to sacrifice powerful protection.

### INNOVATIVE TECHNOLOGY

- Releases free electrons within a protected area to reduce EMF radiation.
- Depolarizes EMFs and reduces EMF exposure to make it biologically safe.
- Reduces the negative health effects caused by EMF radiation, including oxidative stress.
- Tested to reduce exposure to 4G and 5G radiation.
- Scientifically shown to significantly reduce EMF exposure.
- Portable size for protection both at home and on the go.
- Designed to protect bedrooms, offices, small apartments, vehicles, and your person when on the go.

## **USAGE INSTRUCTIONS**

- Carefully remove the Qi-Shield from its packaging and protect it from being dropped or knocked over.
- Keep the Qi-Shield device and packaging materials away from children.
- Place your Qi-Shield in your purse, backpack, car, or suitcase to protect you on the go, or place in an area of your home where you spend most of your time.
- If you are using in your home, place your Qi-Shield a minimum of 10 inches away from all surrounding power and EMF-producing sources (i.e. sockets, power cables, radios, and televisions).
- If you wish to experience grounding benefits, you can touch the Qi-Shield on the copper ring for no more than 2 minutes once or twice a day.
- Please note that the Qi-Shield has a slightly smaller area of protection when mobile.

### **ADVISORIES**

**Please read the following advisories** before using your Qi-Shield. Failure to observe these instructions will make your warranty void.

- Do not make any unauthorized changes or adjustments to the device.
- Do not disassemble the Qi-Shield device
- Do not leave the Qi-Shield outside and unprotected for a long period of time.
- Avoid drastic changes in temperature or humidity, as these can cause the wood to crack and the device to lose effectiveness.
- Keep the room temperature in the range of 26.6°F to 120°F (-3°C to 48.9°C). When using the Qi-Shield on the go, it can be in an environment no warmer than 140°F (60°C).
- Protect the Qi-Shield from rain, moisture, humidity, and heat, including that from heaters and direct sunlight.
- Do not place any objects on top of the device.
- Do not place the Qi-Shield in the microwave.

# OCCASIONAL MAINTENANCE

- **Keep your Qi-Shield clean** by wiping it down with a damp microfiber cloth. Be sure to wipe any residue off with a dry cloth.
- Do not use cleaning solutions, chemicals, solvents, or caustic cleaners on the Qi-Shield. This includes but is not limited to rubbing alcohol, acetone, and petrol.
- Do not use a scouring cloth, sponge, or sharp objects when cleaning the Qi-Shield.
- Avoid exposing the Qi-Shield to moisture for extended periods of time.
- Never clean the Qi-Shield under running or standing water.
- The Qi-Shield was designed to work at full efficiency for 6 years.

# **SPECIFICATIONS**

Product Name	Qi-Shield
Weight	1.85 lbs.
Dimensions	3 (diameter) x 7 in.
Operating Range	8-ft. Radius (16 x 16 ft.), 6 ft. up & 6 ft. down
Metal Material	Copper or Nickel-Plated Copper
Type of Wood	Walnut*
Product Lifetime	6 Years

<sup>\*</sup>Each Qi-Shield is unique. The grain, shading, and color of the wood may vary slightly between products. Wood is a natural product; its weight is subject to fluctuations due to knotholes, etc.
